集团简介

GROUP PROFILE

X-Smart Life 无限可能的智能生活

埃克塞尔智能科技作为智能科技制造业的代表,持续聚焦实业,布局智能科技研发与制造。主营业务横跨AI芯片半导体、智能豪宅电梯、3C智控、全屋定制家居多元产业赛道,建设XSL智能电梯高端品牌、XSL 3C智控生态品牌与MY X³ LIFE全屋定制家居场景品牌。以科技创新为全球用户定制智慧生活,助推实现城市智慧化升级,助力中国制造产业高质量发展、可持续发展。

XSL-Technology, as a representative of the intelligent technology manufacturing industry, continues to focus on industry, with a focus on research and development and manufacturing in smart technology. Its main business spans multiple industries, including AI chips and semiconductors, smart villa elevators, 3C intelligent control, and custom-made home furniture. It is building the XSL smart elevator high-end brand, the XSL 3C intelligent control ecosystem brand, and the MY X³ LIFE custom home furniture scenario brand. Through technological innovation, XSL-Technology customizes intelligent living for global users, driving the smart city upgrade and contributing to the high-quality and sustainable development of China's manufacturing industry.

SHARE THE BEAUTY OF THE INTELLIGENT AGE WITH YOU

We keep in step with technological development in the industry to provide you with an intelligent service experience. We are looking forward to sharing the infinite joy of smart life with you and witness the beautiful beginning of the intelligent age.

组织体系

ORGANIZATIONAL SYSTEM

与探索者同行

MARCH WITH EXPLORERS

我们坚守创新，一起突破传统，一起自我超越
我们坚守品质，坚定品质初心，追求卓越服务
我们坚持多元，拓展智能场景，持续改善产品
我们坚持共赢，和你共建未来，一起共享成果

We stick to tradition together, and surpass ourselves together.

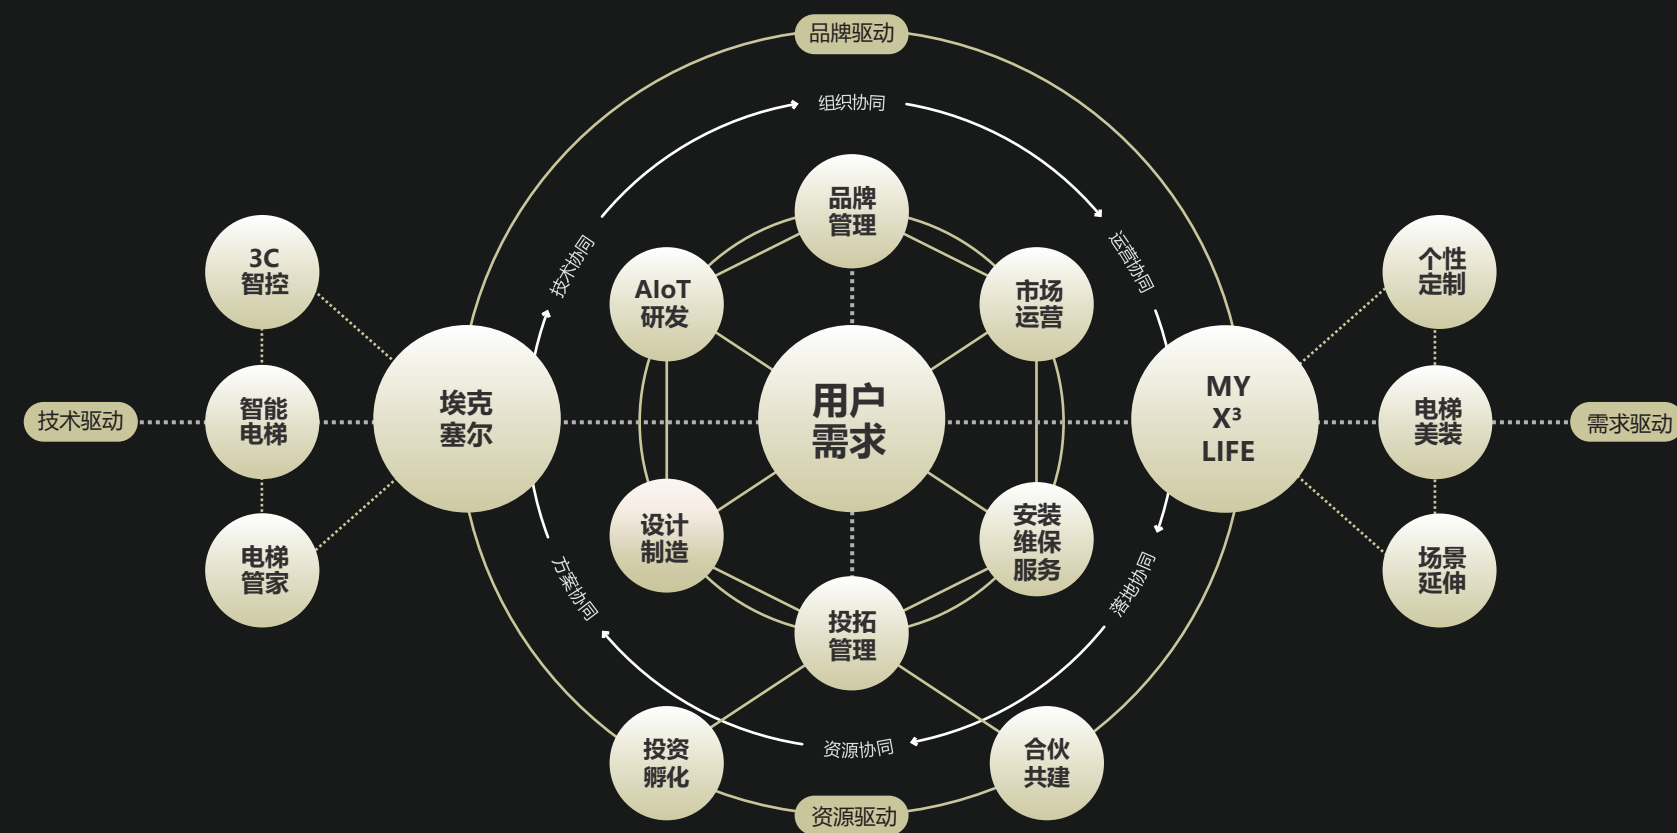

We adhere to quality, stand firm on the original intention of quality, and pursue excellent service.

We insist on diversification, expanding intelligent scenarios, and continuously improving products.

We persist in win-win, building the future with you, and sharing results.

组织图谱 | ORGANIZATIONAL STRUCTURE

埃克塞尔着力打造灵动型组织支撑体系，建立一支敏捷、高效的管理团队，在不同业务之间搭建协同服务平台，并有序形成赋能闭环，以推动各部门的执行运作。

各事业部时刻保持敏锐的市场洞察力，让声音不再局限于企业高层或个别部门，即“人人皆触点”，让每个人都变成企业的传感器，主动自发地寻找市场机会并满足用户需求。

灵动型组织体系已成为埃克塞尔“围绕研发生产、促进业务增长”的最佳组织形态。基于产品创新与系统化解决方案，构筑一个开放的生态服务运营体系，进而更好的服务每个用户、每个家庭，是组织管理持续进化的动力。

XSL is strategically building a responsive organizational support system, fostering an agile and efficient management team. This involves creating a collaborative service platform across different business units and systematically establishing an empowering closed-loop to drive the operational execution of each department. Each business unit maintains sharp market insights, transforming every individual into a sensor for the enterprise, enabling proactive identification of market opportunities, and meeting user needs. The agile organizational system has emerged as the optimal structure for XSL's "focus on research and development, and promotion of business growth." Grounded in product innovation and systematic solutions, we are constructing an open ecosystem service operation system to better serve every user and every household. This dynamic organizational structure serves as the impetus behind the continuous evolution of organizational management.

STRONG BOOST FROM CAPITAL SUPPORT

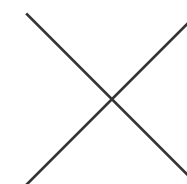

2023年8月埃克塞尔与国新证券成功签署了IPO上市战略合作协议。

国新证券作为一家经国资委控股的经验丰富,专业能力突出的全国性综合证券公司,将为埃克塞尔提供全方位的上市辅导服务。旨在助力埃克塞尔实现顺利上市,并进一步扩大其影响力和竞争优势。

In August 2023, XSL and China Reform Securities successfully signed an IPO listing strategic cooperation agreement. As a national comprehensive securities company with rich experience and outstanding professional ability controlled by the State Assets Administration Commission, China Reform Securities will provide XSL with a full range of listing counseling services. It aims to help XSL achieve a smooth listing and further expand its influence and competitive advantage.

XSL
埃克塞尔智能科技
XSL-TECHNOLOGY

资方介绍 | Introduction to Investors

国新证券股份有限公司是经中国证监会批准设立的一家全国性综合证券公司。中国国新控股有限责任公司为公司实际控制人。公司注册资本58.41亿元,总部设在北京,下设18家分公司、64家营业部,控股4家子公司。

公司坚持以服务实体经济为使命,积极贯彻“以投研为先导,以投行为引领,资管、财富、自营协同驱动”的发展思路,构建了包括“投行、资管、财富管理、自营投资、公募基金、期货、私募股权基金和另类投资”在内的较为全面的业务布局,同时拥有代销金融产品、新三板、股票期权等多项重要业务资格,形成了较为健全的牌照体系。

展望未来,国新证券将积极融入国家战略部署和国有资本运营全局,聚焦金融工作“三大任务”,秉承国新“国之脉、传承责任之脉,新致远、坚持创新发展”与证券行业“合规、诚信、专业、稳健”的核心价值观,以为国资央企提供专业化、一站式金融服务为宗旨,积极探索特色化、专业化、精品化发展之路。

China Reform Securities Co., Ltd. is a national integrated securities company approved and established by the China Securities Regulatory Commission. China Guoxin Holdings Limited is the actual controller of the company. The company has a registered capital of RMB 5.841 billion, is headquartered in Beijing, and has 18 branches, 64 business offices and 4 subsidiaries.

The company adheres to the mission of serving the real economy, and actively implements the development idea of 'taking investment research as the forerunner, leading by investment behaviour, and driven by synergy of asset management, wealth and self-management', and has built a more comprehensive portfolio including 'investment banking, asset management, wealth management, self-managed investment, public funds, futures, private equity funds and alternative investment', and 'investment banking, asset management, wealth management, self-managed investment, private equity funds and alternative investment'. It has built a comprehensive business layout including 'investment banking, asset management, wealth management, self-managed investment, public fundraising, futures, private equity funds and alternative investment', and also possesses a number of important business qualifications such as the distribution of financial products, the new three boards, stock options, etc., thus forming a relatively sound licensing system.

Looking ahead, China Reform Securities will actively integrate into the national strategic plan and the overall situation of state-owned capital operation, focus on the 'three major tasks' of financial work, and adhere to China Reform Securities' "lineage of the country, inheritance of the lineage of responsibility, new to the future, adhere to the development of innovation" and the securities industry. Adhering to the core values of 'compliance, integrity, professionalism and soundness' of the securities industry, Guoxin aims to provide professional and one-stop financial services for state-owned central enterprises and actively explores the road of development with special features, specialisation and boutique products.

核心业务

CORE BUSINESS

XSL 智能电梯

XSL SMART ELEVATOR

智能技术研发平台

致力于将创新技术应用用于智慧电梯、家居智联、智慧社区、应急维保等场景，以AI技术为核心打通上下游生态，融合物联感知、智能视觉、数据融合、数据分析能力，为智能应用场景提供闭环支撑，打造数智化体系，助力客户实现从数字化到数智化的全面升级。

智能电梯全场景解决方案

XSL智能科技专注于智能电梯全场景解决方案，全方位的定制化服务，根据现场制定设计施工方案，电梯功能配置用户可根据自身需求选配，内饰装潢3大系列可根据家居风格进行匹配，保证家居风格的一致性，全系产品及服务为用户制定全方位的个性化体验。

智能管家全周期服务

智能管家主要通过人工智能、智能终端预警、语音识别、图像识别、深度学习、移动互联网等综合工具，服务用户完成管家业务。通过智能维保提醒，城市维保人员定期上门服务，确保设备运行安全。

Intelligent technology research and development platform

We are committed to applying innovative technology to scenarios such as smart elevators, intelligent home connectivity, smart communities, and emergency maintenance, etc. Using AI technology as the core, we open up upstream and downstream ecosystems, integrate IoT sensing, intelligent vision, data integration, and data analysis capabilities, provide closed-loop support for intelligent application scenarios, build digital intelligence systems, and help customers achieve a comprehensive upgrade from digitalization to digital intelligence.

Intelligent elevator full scenario solution

XSL Intelligent Technology focuses on intelligent elevator full-scenario solutions, and provides comprehensive customized services. According to on-site design and construction plans, users can select elevator function configurations according to their own needs, and the three major interior decoration series can be matched according to the home style to ensure the consistency of home style. We design a full range of personalized experiences for users with all products and services.

Intelligent butler full cycle service

The intelligent manager mainly serves users to complete the management business through comprehensive tools such as artificial intelligence, intelligent terminal warning, voice recognition, image recognition, deep learning, and mobile Internet. Through intelligent maintenance reminders, urban maintenance personnel regularly provide on-site service to ensure the safe operation of equipment.

产品介绍 | PRODUCT DESCRIPTION

XV-8000全圆型观光梯

XV-8000 FULL ROUND SIGHTSEEING ELEVATOR

醒目的全圆形观光设计脱颖而出，为乘客提供前所未有的全景观光奢华体验。设计巧妙，打破传统，创造流畅的空间，使人仿佛身临艺术殿堂，沉浸在美景之中。加上卓越的安全性和舒适性，为用户带来无与伦比的美好时光。

The striking, full-circle sightseeing design stands out, providing passengers with an unprecedented panoramic sightseeing luxury experience. The design is ingenious, breaking with tradition, and creating a fluid space that makes people feel like they are in a temple of art and immersed in beautiful scenery. Coupled with excellent safety and comfort, it brings users an unrivaled quality time.

XV-8000 配置清单 | CONFIGURATION LIST

High Stress Direction System	高强度导向系统	S
Pure Steel Balance System	纯钢平衡系统	S
Auto-Lubricated System	自动润滑导向系统	S
AI Super Position System Plus (AISPSP)	增强型超精度智能平层系统	S
AI Super Position System (AISP)	超精度智能平层系统	-
OPT Leveling System	光学平层系统	-
One Touch CFH	一键呼救	S
XSL IoT	XSL智能物联系统	S
Auto Rescure System	断电自动救援系统	S
X-Class Maglock™ Interior	极致灵动内饰系统	-
L-Class Maglock™ Interior	奢华灵动内饰系统	-
S-Class Maglock™ Interior	风尚灵动内饰系统	-
Golden Plating/Silver Plating HMI	银饰面, 金饰面交互模块	S
X-LOB HMI	X厅外银饰面, 金饰面交互模块	S
Flat Coated Rope (FCR)	扁平式裹覆型静音钢缆	S
Super-strength Wirerope	超强度钢芯钢缆	-
Floor	地板材质	奢石/纯天然大理石
Ultra-Slim Door System	超薄自动门系统	-
Warranty Period	有限质保期限	10年
Full HD Touch (FHDMI)	超高清智能交互系统	S
Safety Gear Self-Detect	安全钳自检测系统	S
Real Time Rope Detect (RTPD)	钢缆实时检测	S
Sightseeing sedan	观光轿厢	S

Note: S stands for standard configuration.

注: S标准配置, - 恕无法提供。

创新智造 舒适安全

INNOVATION, INTELLIGENCE,
COMFORT AND SAFETY

创新是制造业的生命之源，智能化是时代科技的必然趋势。埃克塞尔立足于当下不断升级的用户需求，放眼未来，创新不断，致力为用户提供安全与舒适的电梯乘用体验。全方位的服务保障是对安全的郑重承诺，也是对品质的执着追求。

Innovation is the source of life for the manufacturing industry, and intelligence is an inevitable trend in the technology of the times. Based on the current continuously upgraded user needs, XSL looks to the future, continues to innovate, and is committed to providing users with a safe and comfortable elevator passenger experience. The comprehensive service guarantee is a solemn commitment to safety and a persistent pursuit of quality.

Note: Guangdong XSL Institute of Advanced Technology provides data support

深海静音技术 DEEP SEA SILENCE TECHNOLOGY

≤ 40dB

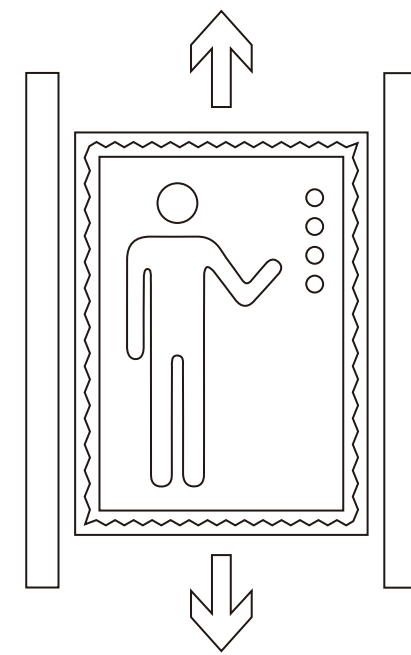

轿厢内达到人体舒适静音分贝国际标准

The interior of the car meets the international standard for human comfort and silence in decibels

电梯采用自主研发的DOS系统, 拥有良好的吸音、隔热、等功能。有效隔绝外界噪音, 让客户享受深海般的乘坐体验。

The self-developed DOS system which has good sound absorption, heat insulation and other functions is adopted for the car. It can effectively isolates external noise, so that customers can enjoy a deep sea-like riding experience.

舒适

增强型超精度智能平层系统 Enhanced ultra-precision intelligent leveling system

≤ 1mm

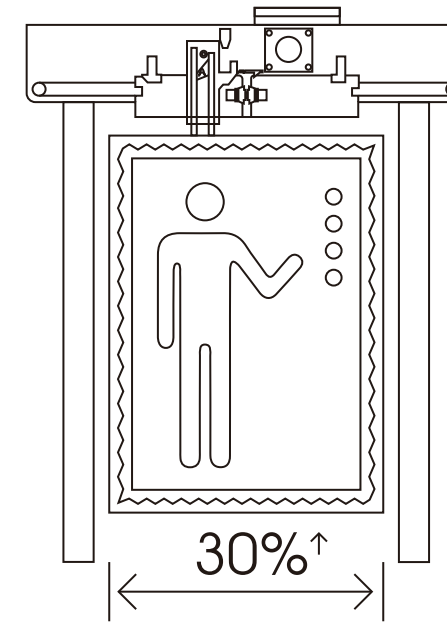

电梯抵达楼层, 与楼层高度差距极小。

The elevator reaches the floor, and there is very little difference in height from the floor.

埃克塞尔电梯使用超精度智能平层系统, 让轿厢在抵达楼层的同时, 同步智能校准楼层高度, 采样精度高达0.01mm。

The XSL elevator uses an ultra-precise intelligent leveling system, allowing the car to simultaneously and intelligently calibrate the floor height while reaching the floor. The sampling accuracy is as high as 0.01mm.

舒适

超薄自动门系统 ULTRA-THIN AUTOMATIC DOOR SYSTEM

30% ↑

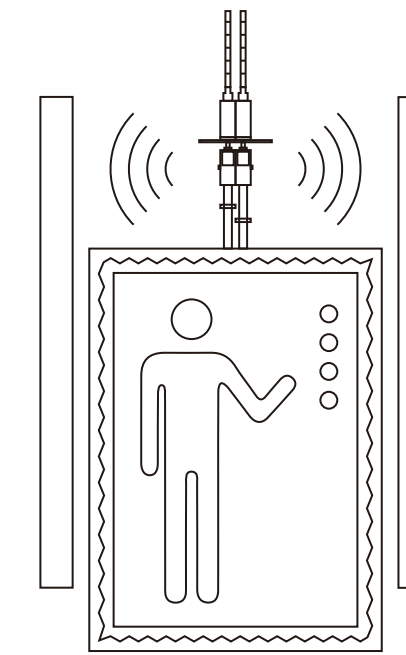

可有效提升30%井道利用率

It can effectively improve the utilization rate of the shaft by 30%.

超薄门机有效节省电梯空间, 可适用于多种空间结构中电梯需求的各种安装方式, 可有效提升30%井道利用率。经过多年市场化验证, 实用方便, 质量过硬, 零配件供应链成熟。

The ultra-thin door machine effectively saves elevator space. It can be applied to various installation methods for elevator requirements in various space structures, and can effectively increase shaft utilization by 30%. After years of market-based verification, it is practical and convenient, the quality is excellent, and the spare parts supply chain is mature.

舒适

钢丝绳状态实时检测装置 Real-time detection device for the condition of steel wire ropes

7×24h

二十四小时全天候智能监测状态

Intelligent monitoring status 24 hours a day, 7 days a week

钢丝绳承载着电梯的全部重量, 也承载着家人的生命。埃克塞尔利用7x24h实时检测装置对钢丝绳的状态进行实时监控, 并设置风险评估阈值, 一旦状态风险增加, 即刻会提出使用警告, 充分做到防患于未然。

The steel wire rope carries the full weight of the elevator, as well as the lives of the family. XSL uses a 7x24h real-time detection device to monitor the condition of the steel wire rope in real time and set risk assessment thresholds. Once the risk of the condition increases, it will immediately issue a warning for use, so as to fully prevent problems before they occur.

导向系统-自动润滑装置

舒适

Guidance system-automatic lubrication device

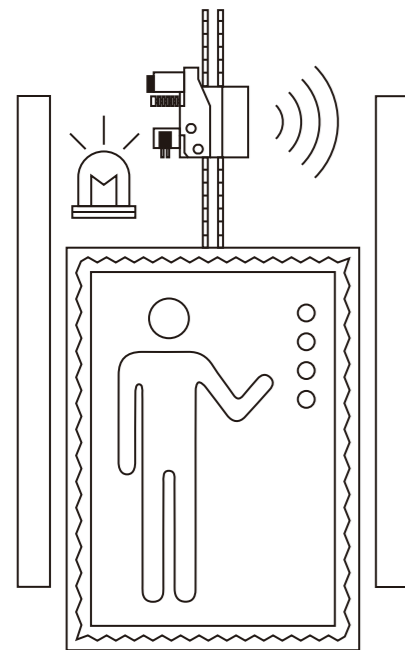

AUTO

有效减少维护次数, 告别油污。

It can effectively reduce maintenance times and enable you to get rid of oil pollution.

自主研发的ALS系统可最大限度的减少维护次数, 在电梯运行时自动对导向系统进行润滑, 很好的提升了电梯运行舒适性及可靠性。

The self-developed ALS system can minimize the number of maintenance times and automatically lubricate the guidance system during elevator operation, which greatly improves the comfort and reliability of elevator operation.

安全钳24h检测系统

安全

Safety gear 24h inspection system

1次/24h

每二十四小时智能检测安全钳状态一次

Intelligent detection of safety gear status every 24 hours

埃克塞尔电梯的安全钳采用业内先进的安全部件自检系统, 当电梯速度超过电梯限速器设定的限制速度, 或在悬挂绳发生断裂和松弛的情况下, 将电梯紧急制动并夹持在导轨上。系统可每隔24小时监测电梯安全部件是否运行正常, 全方位无死角保障电梯使用安全。

The industry's advanced safety component self-inspection system is used for XSL elevator safety fasteners. When the elevator speed exceeds the speed limit set by the elevator speed limiter, or when the suspension rope is broken or loosened, the elevator will be stopped and clamped on the guide rail. The system can monitor whether the elevator safety components are operating normally every 24 hours to ensure the safety of elevator use without dead spots in all directions.

INCEPTION

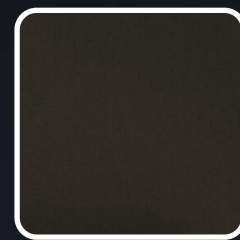

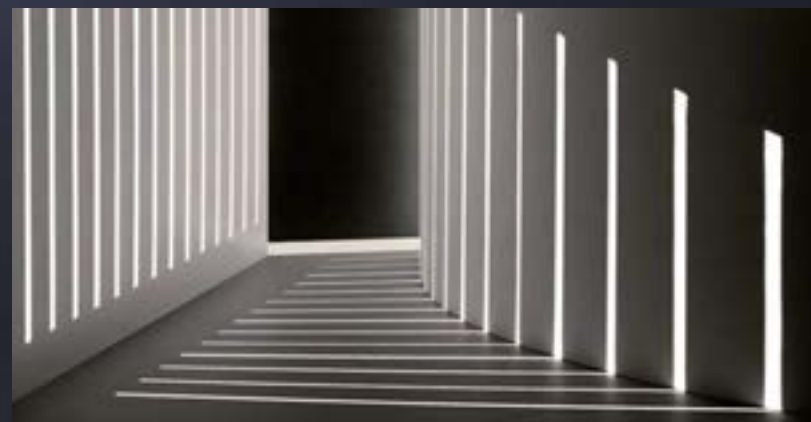

盗梦空间

静逸且悠远的梦境，犹如隧道一般的层次堆叠，让人徜徉，流连不觉时光流淌。

艺术的拱形阵列和纯粹的金属和大理石，只需轻微的节奏变化，就能让空间变的富有层次节奏。再通过镜面将节奏复制交叠，在这深邃的空间中获取别样的梦幻。

A quiet and long-standing dream, stacked in layers like a tunnel, makes people wander around, and time flows by without thinking. Artistic arched arrays and pure metal and marble only require a slight change in rhythm to make the space rich in rhythm. The rhythm is then replicated and overlapped through a mirror to obtain a different kind of dream in this deep space.

Ceiling: Dark brown matte
Back wall: Custom silk fabric + engraved mirror stainless steel grille
Side wall: Embroidered fabric+engraved mirror stainless steel grille+metal handle
Floor: marble (optional for a fee)

"深渊星辉", 宛如一个来自深邃宇宙的梦境, 融合了神秘的星空与现代工艺。湛蓝的墙面如同遥远星系的涟漪, 暗藏着无数魅力与奥秘。金色的几何纹理, 宛如星辰在夜空中绽放, 为这个空间增添了一丝神秘与尊贵。当灯光映照下, 这片星辰仿佛降落在了脚下的大理石上, 给人一种时空交错的错觉。

"Abyssal Starlight", like a dream from the deep universe, combines a mysterious starry sky with modern craftsmanship. The clear blue wall is like the ripples of a distant galaxy, hiding countless charms and mysteries. The golden geometric texture, like a star blooming in the night sky, adds a touch of mystery and honor to this space. When the light shines, the stars seem to land on the marble under their feet, giving people the illusion of time and space interlaced.

WHIRLWIND

扶摇

大鹏一日同风起,扶摇直上九万里。中华文明传承千年的文化沉淀给了我们无尽的灵感。红色是中国人的文化图腾和精神依归,我们采用祥和热烈的红色为主基调,运用精致细腻的刺绣呈现缤纷的主题,雕花的部分我们回归质朴使用竹雕与木作相结合的方式来自点缀。地面使用榫卯工艺拼接鱼骨纹样,让空间在含蓄中传递中国特有的文化属性。

"If once together with the wind the roc could rise, he would fly ninety thousand miles up to the skies." The cultural accumulation of Chinese civilization, which has been passed down for thousands of years, has given us endless inspiration. Concerning that red is the cultural totem and spiritual rule of the Chinese people, we use peaceful and warm red as the main tone, and use exquisite and delicate embroidery to present colorful themes. We return to the carving part of the carving, using a combination of bamboo carving and wood for decoration. The ground uses a tenon technique to splice fishbone patterns, so that the space conveys the unique cultural attributes of China in a subtle way.

HERMÈS ORANGE

爱马仕橙

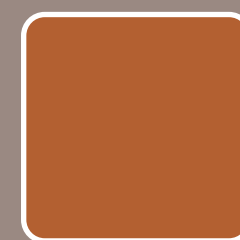

时尚的潮流灵动多变,而恒久的魅力是对于品质的不懈追求,奢华不一定要外露于表象,而在于内心是否能感受到这一份独具匠心的不凡。爱马仕用几代人的坚守融进这非凡的橙色,埃克塞尔沿用真皮材质,将这不凡带入电梯轿厢之内。致敬经典,也致敬不凡。

Fashion trends are dynamic and changing, and the enduring appeal is the relentless pursuit of quality. Luxury does not necessarily have to be exposed to the appearance, but lies in whether the heart can feel this a unique originality of the extraordinary Hermès used the persistence of several generations to incorporate this extraordinary orange color. XSL continues to use leather materials to bring this extraordinary into the elevator car. A tribute to the classics, but also to the extraordinary.

THICK INK LIGHT COLOR

浓墨淡彩

中式的写意意境含蓄优美,深刻烙印在中国人的文化信仰当中,中式的格栅隔断也潜移默化的描述着中国人的处事哲学。埃克塞尔的中式电梯装饰在可定制化的同时,增强了画质的层次质感,让浓墨淡彩的山水意境荡漾在您的电梯之中,呈现历久弥新的文化魅力。

The Chinese style's freehand mood is subtle and beautiful, which is deeply imprinted in the cultural beliefs of the Chinese people. The Chinese grille partition also subtly describes Chinese people's philosophy of handling affairs. While being customizable, XSL's Chinese-style elevator decoration enhances the hiagerchical texture of the image quality, allowing the rich and light color landscape to ripple through your elevator, presenting a timeless cultural charm.

CHINESE STYLE

极致中式

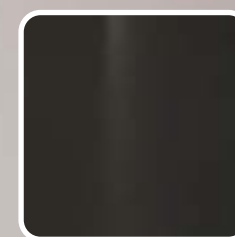

中式的留白源自中国人的取舍之道，是一种睿智的奢华，也是新中式极致简约的核心理念。我们在留白中加入了如意的符号，同样运用简约的手法将其囊括其中。再通过细部层次的叠加，平衡对称的布局，让空间获得仪式感和稳定感。再加以留白和墨色描边，在赋予中式气质的同时，使得空间的精致感油然而生。

The Chinese style of leaving empty space comes from the Chinese people's trade-offs. It is a kind of wise luxury as well as the core concept of extreme simplicity in the new Chinese style. We add wishful symbols in the empty space while using simple techniques to include them. Furthermore, through the superposition of detailed levels, the symmetrical layout is balanced, so that the space acquires a sense of ceremony and stability. In addition, white and ink strokes are added to impart a Chinese temperament while also creating a sense of refinement in the space.

- 针对未成年儿童
独自乘梯情景下, 儿童模式下防止误操作, 安全门防夹伤系统, 异物监测预警等功能, 让父母及家人在无看护下更安心。
- 针对老年人群体
独自乘梯情景下, 系统实时监测, 防止滑倒辅助设计, 疾病监测, 突发疾病外呼救援等, 让子女在外更放心。
- 针对孕妇群体
乘梯情景下, 智能物联系统可自定义应急联系人, 与家人、医护、社区联通, 一键外呼, 让产妇能够及时得到救助。
- 针对养宠物的家庭
宠物监测系统, 实时预警, 宠物靠近安全区域, 开启主人提醒, 自动切换宠物模式, 监测宠物行为, 不放过每个细节。
- 针对残障人群
让科技服务于人, 埃克塞尔长期关注弱势人群, 为特定人群进行产品功能设计, 为特定情境下有障碍的人群提供更便捷、更周到的服务。

- For underage children
In situations where people ride on an elevator alone, prevent misoperation in child mode, safety door anti-pinch system, foreign objects, Functions such as monitoring and early warning make parents and families feel more at ease without care.
- For the elderly
In the scenario of riding an elevator alone, system real-time monitoring, slip prevention assistance design, disease monitoring, and collapse, if an illness occurs, call for help, etc., so that children feel more at ease when they are outside.
- For pregnant women
In the elevator scenario, the intelligent IoT system can customize emergency contacts with families, medical care, and the community in connectivity, enabling one-touch outbound calls, so that mothers can get help in a timely manner.
- For families with pets
pet monitoring system, real-time warning, pets close to safe areas, activate owner reminders, automatically switch pet modes, monitor pet behavior, and not skimp on every detail.
- Targeting people with disabilities
Let technology serve people, XSL focuses on disadvantaged people for a long time and makes products for specific groups
Functional design provides more convenient and thoughtful services for people with disabilities in specific situations.
